	Funding Organisation:	The Research Foundation – Flanders (FWO)  Opening new horizons	
National Contact Point (NCP)	Name:	Email and Phone:	
	Toon Monbaliu	eranet@fwo.be +32 2 550 15 70	
Eligible Institutions	See 'Eligible applicants' section.		
Eligible Applicants	The FWO participates with its (junior/senior) ' research projects' funding channel , which implies that these specific regulations apply: See articles 10-12 (in essence this comes down to holding an eligible 'ZAP-position' at a Flemish, eligible main host institution.)		
Eligible Costs	FWO (sub)projects are capped at max. 350.000 EUR per project/consortium (incl. 6% overhead). In total, the FWO foresees a budget of 700.000 EUR, which allows funding 2-3 projects. For the overhead calculation the following method has to be respected: a 6% structural overhead should be calculated on the direct costs. E.g.: the sum of all costs (personnel, consumables, travel, etc.) amount to 300.000 EUR, then the overhead will amount to 18.000 EUR (6% of 300.000 EUR) and the total requested cost 318.000 EUR. This total requested cost may never exceed 350.000 EUR. Admitted costs Only temporary personnel can be remunerated. For the cost categories see chapters 7 and 8 of the regulations .		
Funding Commitment	Total Amount for the Call	Maximum Amount Per Proposal	
	700.000 EUR	350.000 EUR (incl. 6% structural overhead)	
Other Funding Criteria	One and the same researcher can participate in 2 different research projects/consortia at maximum when applying for FWO funding, within the same call. Researchers are asked to inform their central coordination unit, at their host institution, about their participation. Projects may last up to 36 months, which implies the funding has to be budgeted and spent accordingly. Extensions are not allowed.		

Relevant documents	Make sure that all consortium partners go thoroughly through the call documents and national regulations.
Additional Info	<p>It is advised to contact the FWO before submission (see contact point above), in order to avoid ineligible projects and consortia.</p> <p>ERA-NET participation does not interfere with the 'regular' project submission framework, and is consequently not taken into account for calculating the max. available number of new applications and running projects combined.</p>

Eligible Institutions	<p>ANR may finance Partners that have their primary establishment in France and/or Partners established in the EU and that can prove that they have a secondary establishment in France. To be eligible, the consortium must include at least one French public research organization (EPA, EPSCP, EPST, EPIC).</p> <p>The involvement of an enterprise is encouraged but not mandatory. If a non-French enterprise is involved in a project, it is mandatory to involve a French enterprise; otherwise the French partners will be declared ineligible.</p>		
Eligible Applicants	See above		
Eligible Costs	Please check the National Funding Regulation at: https://anr.fr/fr/rf/		
Funding Commitment	Total Amount for the Call	Maximum Amount Per Proposal	
	€2,000,000	The maximum amount which can be requested by each proposal with French applicant(s) is limited to: <ul style="list-style-type: none"> • €300,000 (if French Coordinator) • €250,000 (if French Participants) 	
Other Funding Criteria	<p>The funding requested from ANR for a project must be between 15 000 € and 250 000 €. If there are several partners requesting funding from ANR, the 250 000 € have to be shared. If a partner requesting funding from ANR is coordinator of a proposal, the maximum amount of funding requested can reach 300 000 €.</p> <p>Please check the National Funding Regulation at: https://anr.fr/fr/rf/</p>

<p>Additional Info</p>	<p><u>Additional eligibility criterion:</u> To be eligible, the proposals must not be judged as similar with another proposal. The similarity between two Projects is established when these Projects (in their entirety or in part) describe identical main objectives or result from a simple adaptation.</p> <p><u>Project partners' commitment:</u> <u>Access to genetic resources and traditional knowledge associated with genetic resources</u> Pursuant to the Nagoya Protocol, ANR must obtain documentary evidence of Due Diligence Declarations (DDD) for all research projects that it funds. Projects funded will be asked to make a declaration on potential utilisation of genetic resources during their projects. DDDs for research work can be submitted online using the special application on the MESRI website. Credentials to access the application can be obtained from the director of the host institution. For full details, go to: http://www.enseignementsup-recherche.gouv.fr/pid37627/utilisation-ressources-genetiques-associees.html</p> <p><u>Open Science</u> As part of the contribution of the ANR to the promotion and implementation of an open science, and in connexion with the National plan for an open science, the applicants formally undertake, if they receive funding, to: (1) post the full texts of all scientific publications resulting from the research project in an open archive (either directly in HAL or via a local institutional archive); and (2) to provide a data management plan (DMP) within 6 months of the project start, as per the ANR Funding regulation (<i>Règlement financier</i>) and the arrangements communicated in the act allocating the grant. Besides, the ANR recommends that publications be made in reviews or books in native open access.</p> <p>Terms and conditions and important recommendations for partners requesting funding from ANR will be published on ANR website.</p>

Eligible Institutions	South African registered Universities, Science Councils, Research Institutions and Private Sector conducting research, development and innovation.	
Eligible Applicants		
Eligible Costs	Direct project related cost: personnel, project activities and procurement of equipment and Other direct costs: consumables and travel costs (flight, accommodation, allowance and visa fees) to participate in the project kick-off and other obligatory project consortium meetings.	
Funding Commitment	Total Amount for the Call	Maximum Amount Per Proposal
	€130,000	Maximum of €50,000 per project for the duration of the project and not per annum. *The WRC will use an standard average rate of IR=€15 for all projects*
Other Funding Criteria	<p>1) To access the WRC funding, all SA lead researchers in approved AquaPollutants projects will be required to submit a funding application through the WRC Online Business Management System (BMS) as the first step for contracting process and also for national reporting. The submission on BMS is mainly to capture the already approved project on the WRC system.</p> <p>(2) All projects should be aligned to one or more of the WRC strategic objectives to qualify for funding. Check WRC website for more information and there must be a clear distinction of new elements and value addition to projects that have been previously funded by the WRC through national calls. Misaligned projects and failure to clearly distinguish the new elements in previously funded projects will lead to funding rejection regardless of Water JPI approval.</p>	
Relevant documents	National Regulations	

<p>Additional Info</p>	<p>(1) SA partners are encouraged to include students in the projects for capacity building.</p> <p>(2) Before submitting the proposal to the AquaPollutants call secretariat, it is advised that the SA partner share the project outline with the WRC also highlighting the required financial cost for the SA partner to get WRC endorsement. The project outlines should be submitted to the WRC NCP not later than 2 weeks before the call deadline to allow sufficient time for the WRC expert to assess the application.</p> <p>(3) The WRC National Contact Point will facilitate and assist with partner matching between SA and for WaterJPI call partners countries if necessary.</p> <p>(4) To raise awareness and promote the call in SA, the WRC will share the information on the call information session that will be conducted virtually by the AquaPollutants secretariat and also live stream the session using WRC social media channels. The WRC NCP will also be available for bilateral meetings with individual institution as per invitation.</p>

	<p>Patriq Fagerstedt</p>	<p>patriq.fagerstedt@vr.se +46 (0)8-54644246</p>	
<p>Eligible Institutions</p>	<p>Grants from the Swedish Research Council shall be administered by a Swedish university or HEI or another Swedish public organisation that fulfils our criteria for administrating organisations. To apply, your organisation must therefore be approved as an administrating organisation. Please note that as a consequence, Swedish researchers working for a company cannot be financed, and should therefore not submit an application to the Swedish Research Council, even if they are part of a consortium application.</p>		
<p>Eligible Applicants</p>	<p>You must hold a Swedish doctoral degree or a corresponding foreign degree, awarded no later than the deadline for this call. You may only submit one application for this grant, and you may only be the Swedish partner of one consortium in this call. The applicant may not have an ongoing JPIAMR grant or any other project grant concerning the same project concept, funded by the Council, at the start of the grant period.</p>		
<p>Eligible Costs</p>	<p>The project grant may be used to fund all types of project-related costs, such as salaries (including your own salary, however no more than corresponding to the person's activity level in the project), running costs (such as consumables, travel including stays at research facilities, publication costs and minor equipment), premises and depreciation costs. Grants may not be used for scholarships. If a doctoral student participates, project funds may not be paid out as salary during teaching or other departmental duties.</p>		
<p>Funding Commitment</p>	<p>Total Amount for the Call</p>	<p>Maximum Amount Per Proposal</p>	
	<p>19 000 000 SEK</p>	<p>Total amount per project proposal: 500 000 EUR (SWE Coordinator) or 300 000 EUR (SWE Partner(s)) for all Swedish applicants together, including indirect costs.</p>	
<p>Other Funding Criteria</p>	<p>The Swedish Research Council will support research projects under all three themes of the call - Measuring/Evaluating/Taking Actions - under the condition that the project includes research on pathogens and antimicrobial resistant bacteria from aquatic ecosystems (inland and marine). All Swedish applicants must communicate with the national contact person regarding their intention to participate in the call, before submission of the consortium application.</p>		

	<p>All Swedish partners participating in the call and applying for funding from the Swedish Research Council shall also submit a parallel application using the Swedish Research Council's application system Prisma. The application form in Prisma can be reached from the call text at the SRC website.</p> <p>Parallel application is a mandatory eligibility criterion. Failure to submit the parallel application to the Swedish Research Council before the deadline of the Prisma call will result in the Swedish partner being declared ineligible.</p>
