Boletim nº: 0193

Elaborado na data: 26/08/2021

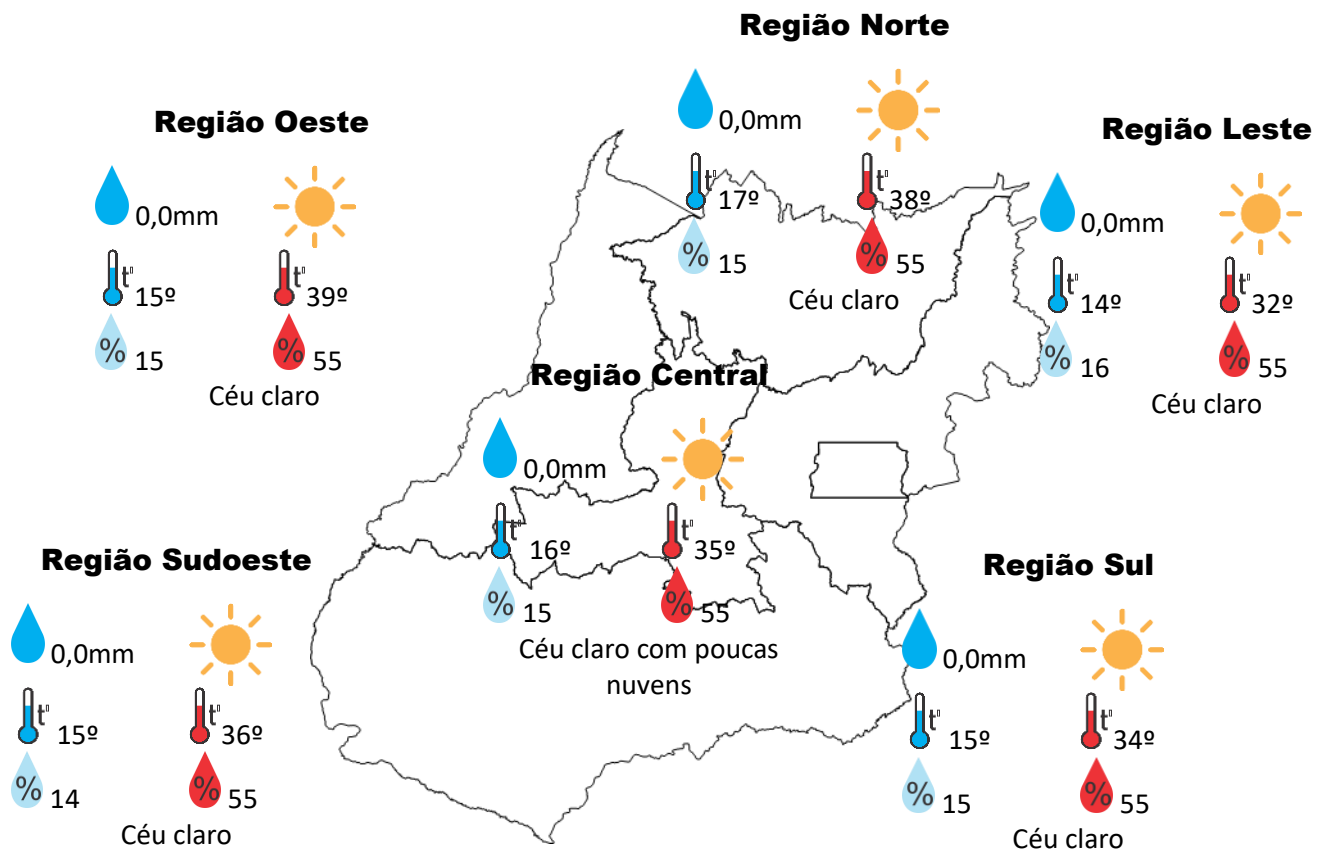

Previsão para data: 27/08/2021

Informações do Tempo para o Estado

Sexta-feira a massa de ar seco e quente mantém o tempo estável com céu claro, temperaturas máximas elevadas e a umidade relativa do ar em declínio no período da tarde, com índices abaixo dos 20%.

Capital: Céu claro, temperaturas amenas pela manhã e elevadas no período da tarde e umidade relativa do ar em declínio no período da tarde com índice na casa dos 15%.

Prognóstico para final de semana: Tempo estável com céu claro. Os destaques ficarão para as temperaturas elevadas no período da tarde e os baixos índices da umidade relativa do ar no período da tarde que estarão abaixo de 20%. Devido ao avanço da frente fria vinda do sul do país teremos uma pequena possibilidade no domingo da ocorrência de instabilidades na região sudoeste do Estado.
