Boletim nº: 0159

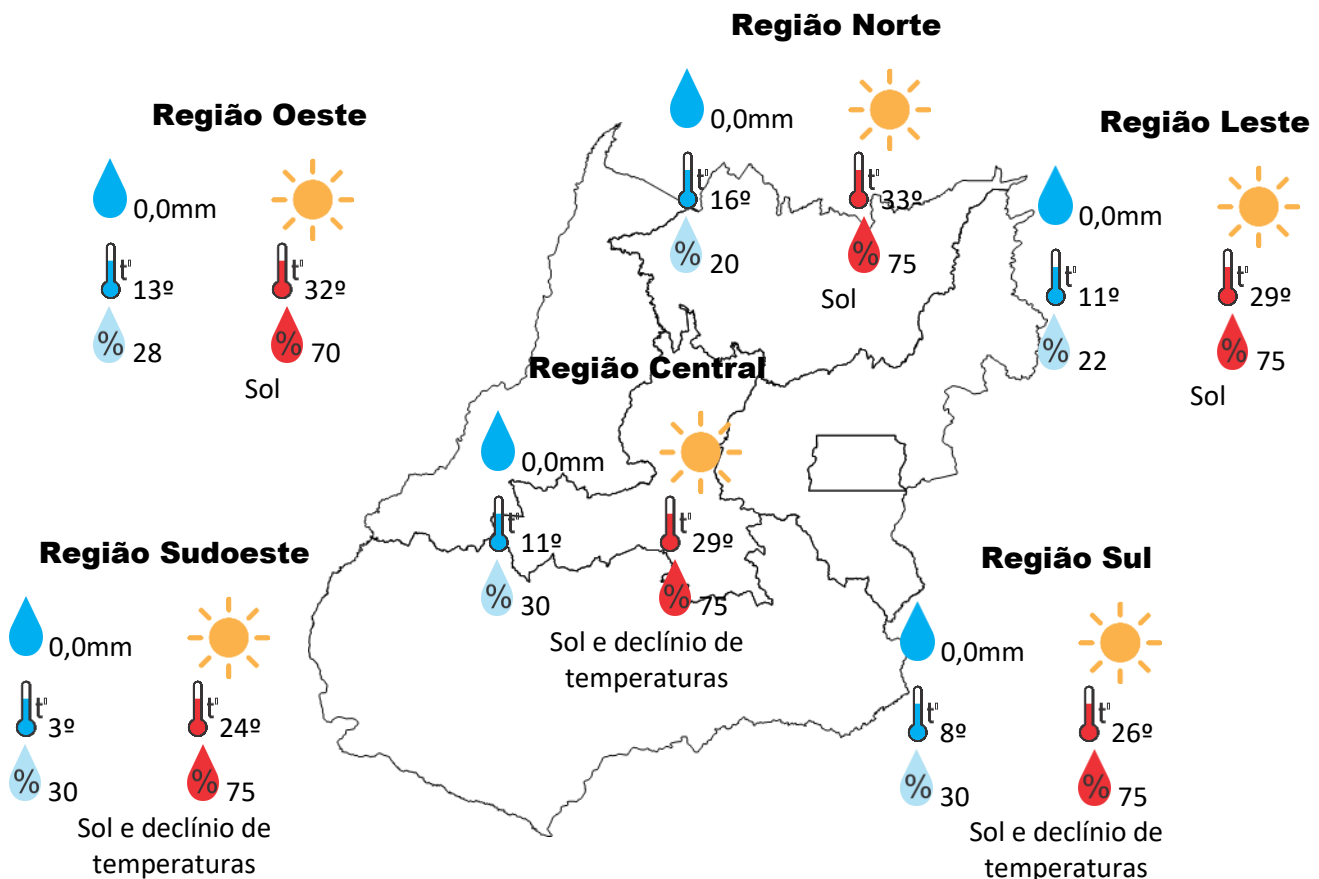

Elaborado na data: 18/07/2021

Previsão para data: 19/07/2021

Informações do Tempo para o Estado

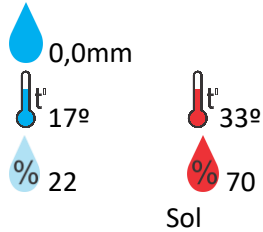

Nesta segunda-feira o avanço da massa de ar frio de origem polar irá propiciar o declínio das temperaturas em parte de nosso Estado. O frio terá maior intensidade na região centro sul do Estado, especialmente na região sudoeste onde há risco de ocorrência de geada de fraca intensidade.

Prognóstico para semana: semana com predomínio de sol e sem chuvas em nosso Estado, o destaque será que no início da semana onde teremos o avanço de uma massa de ar frio de origem polar e com isso as temperaturas entrarão em declínio, na terça-feira o ar frio se espalha em toda a região centro sul do Estado, na quarta-feira ainda com temperaturas amenas, mas a massa de ar polar começa a perder intensidade, já na quinta e sexta-feira temperaturas mínimas amenas e máximas em elevação.
