Boletim nº: 0145

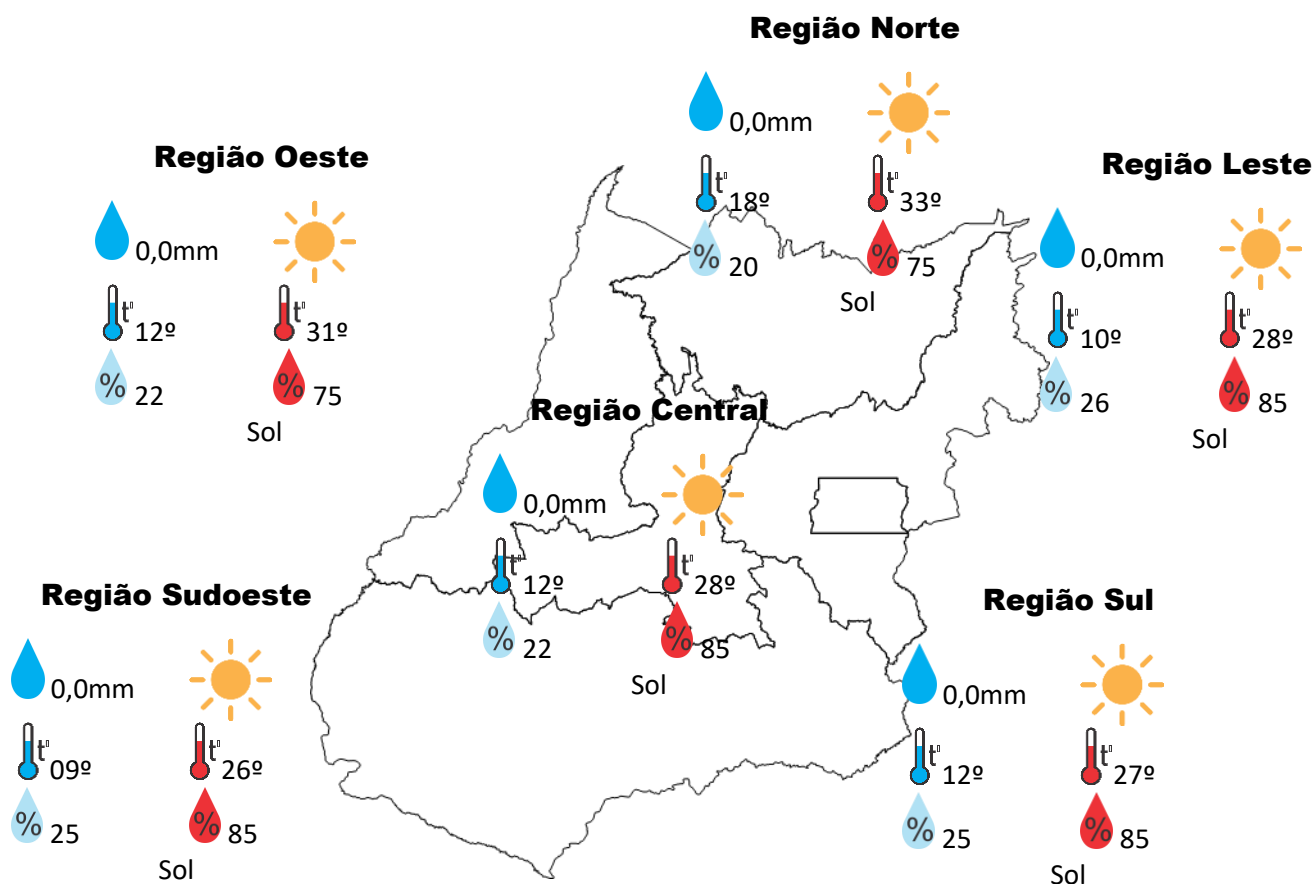

Elaborado na data: 01/06/2021

Previsão para data: 02/07/2021

Informações do Tempo para o Estado

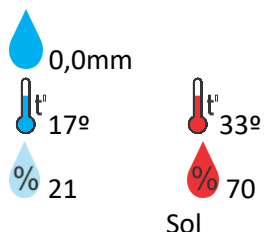

Nesta sexta-feira ainda teremos a influência da massa de ar frio de origem polar, mas esta massa de ar polar começa a perder intensidade com isso as temperaturas mínimas tendem a subir.

Prognóstico para final de semana: Tempo estável com sol, a massa de ar polar perde gradativamente a intensidade e as temperaturas mínimas ficam amenas pela manhã e umidade relativa do ar em declínio no período da tarde.
