Boletim nº: 0106

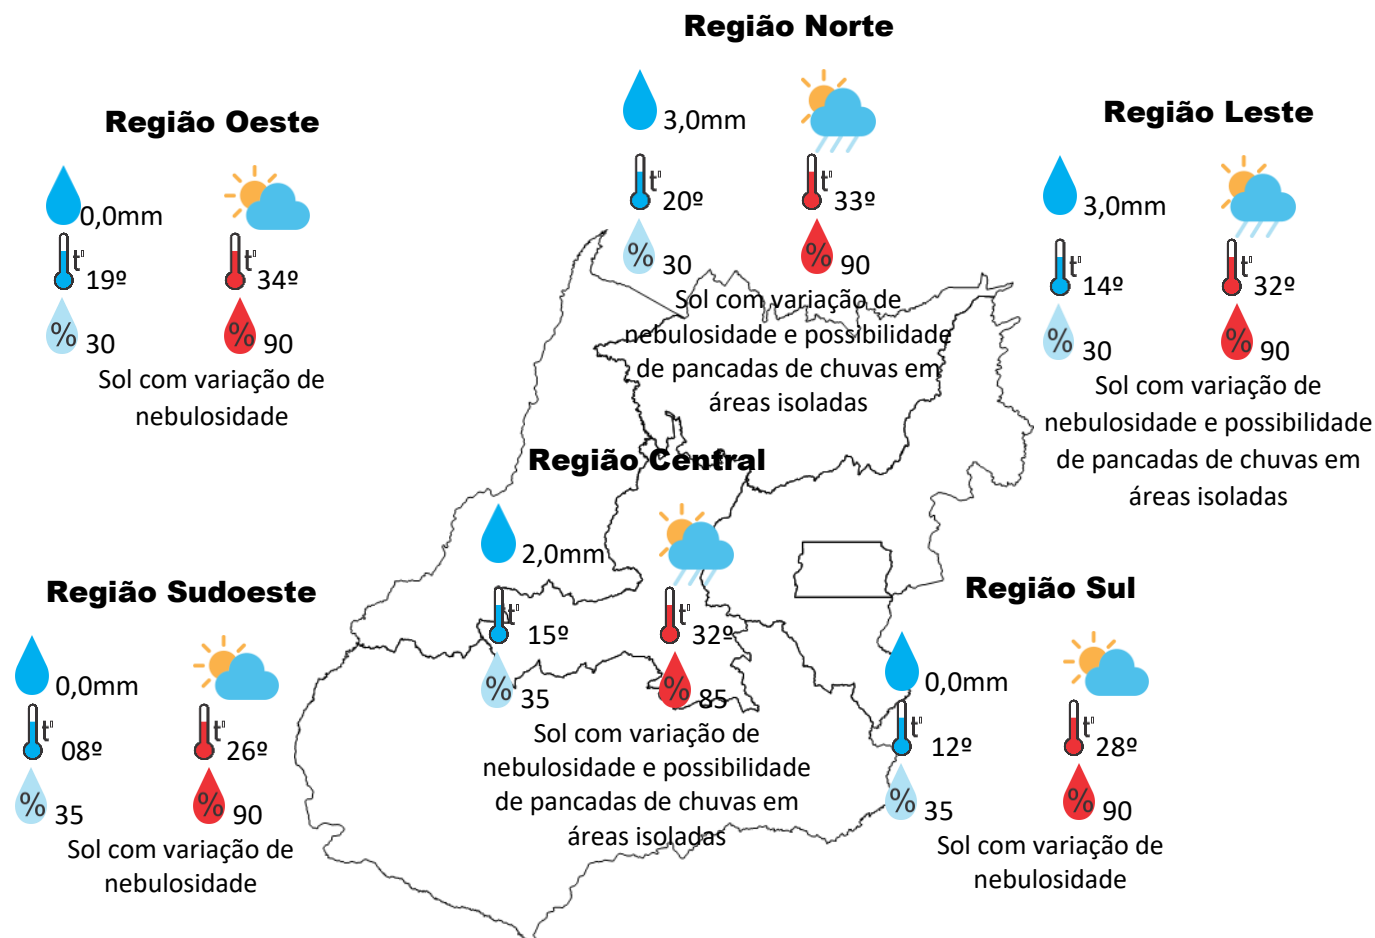

Elaborado na data: 04/05/2022

Previsão para data: 05/05/2022

Informações do Tempo para o Estado

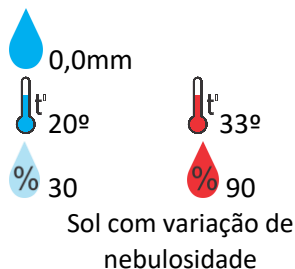

Quinta-feira com sol e variação de nebulosidade após a passagem da frente fria temos ainda a possibilidade de pancadas de chuvas em áreas isoladas em algumas regiões de Goiás, mas o destaque fica para ar frio de origem polar que avança pelo Brasil, com isso temos a tendência de queda nas temperaturas na região centro sul de Goiás.

Capital: sol e variação de nebulosidade, com possibilidade de pancadas de chuva em áreas isoladas, temperatura máxima podendo chegar aos 29°C e umidade relativa do ar variando entre 35% a 90%, o nascer do sol será às 06:30hs e o pôr do sol às 17:57hs.
